India's First ISI Certified Liquid Synthetic Resins Manufacturer

Akolite Synthetic Resins

Established in the year 1995 to develop and provide quality synthetic resin adhesives for plywood, panel and wood-based product industries.

Core Competency

We provide

- ▶ Custom solutions to our clients
- ▶ Joint working approach for practical and economical results
- ▶ Resins conforming E1 formaldehyde emission standards

Quality & Service

- ▶ Strict internal controls
- ▶ Quality and consistency in our resins, products and services
- ▶ Elaborate in-house testing mechanisms and testing facilities

Research & Development

Armed with one of the best Research facilities in the plywood industry, our state-of-the-art research lab is dedicated to roll out the best of products and services for our most valued clients and customers from within the country and overseas.

Each batch of resin is stored for sample reference in our R & D lab for a specific number of weeks that helps in troubleshooting and material study.

IS 848 : 2006

Synthetic Resins

PHENOL RESINS

Phenol Formaldehyde

2- Stage Modified Phenol Formaldehyde (Alkali/Alkali)

2- Stage Modified Phenol Formaldehyde (Acid/Alkali)

Phenol Resorcinol Formaldehyde (PRF)

Phenol Lignin Formaldehyde

Phenol Melamine Formaldehyde
